

HAL-3 Det 7 Personnel (173 Seawolves)

HC-1 Det Gunship Ops using borrowed Army UH-1B Helicopters, began Combat Operations in Vietnam 19 SEP 1966. HAL-3 officially established 1 APR 1967; Decommissioned 24 MAR 1972.

DET 7 – Activated in 1967, operated from Binh Thuy until JUN 1969, operating from a small helipad by the Bassac River in front of the enlisted barracks. It was just the SEALs, PBR guys, Seawolves and a few FASU Binh Thuy Enlisted. The pad had two trailers on it for the Officers and one for the enlisted separated by a walkway with corrugated steel for a roof surrounded by wire. In APR of 1969, the Seabee Detachment finished enough of the new base across the street to move there. DET-7 moved in JUN 1969 to Tay Ninh and later to Ben Luc working with Det 4, for what was supposed to be a short time, but ended up being permanent. On SEP 30 1970, DET 7 moved from Ben Luc to Dong Tam supporting operation Tran Hung Dau 8 & 14. They provide air support for the Riverine forces in an attempt to establish the government of South Vietnam influence in Kien Hoa Province. They also support SEALs, boats and the Army in the area and remained until stand-down.

Tour Dates in Green are confirmed from microfilm copies of official HAL-3 Personnel Diary entries; EDVR'S and ODCR'S I recently obtained from U. S. National Archives and Records. (I am still going through them, with more records still to come - Dan)

*Report data is from Seawolf Database created by Dan Arnes (HAL-3 '70-'72) with special credit to Richard E. King (HAL-3 '71-'72) for sharing his several years of collected data and numerous other Seawolves contacted and willing to share information on themselves and others they've known.

**Please update your information (email Dan_Arnes@yahoo.com). If you see an error, know a tour date of someone during your tour, or can confirm an "Unconfirmed" Seawolf, please email me with information and source if any, and any Brothers who have passed on with Obituary or as much info possible.

NOTE: Rather than delete a possible Seawolf's record, I have retained some records having no First Name or reference information as "Unconfirmed". They may still be Seawolves, but without someone's confirmation or some reference information, I do not know where the names originated. Dan

"It is the duty of every good citizen to use all the opportunities which occur to him, for preserving documents relating to the history of our country."
